

# Expertise you can trust...

## Have you been affected by a medical error or mistake?

We are able to offer members representation for clinical negligence compensation claims. These claims arise if you have been injured as a result of poor medical treatment received from your GP, a Hospital, Private Consultant or Dentist.

Poor medical treatment can arise due to failures in diagnosing or treating a condition or injury, prescribing the wrong medication, making a mistake during surgery or even due to failures during childbirth. Claims can also arise through contracting hospital acquired infections such as MRSA and C-Difficile.

If you, a family member or friend have been affected by a medical error or mistake we can forward your case to one of Simpson Millar’s experienced national clinical negligence teams who will provide advice on every case. If there are reasonable prospects of success they will take on the cases on a no win no fee basis. The scheme does not cover representation at inquests.

Please register your claim by either telephoning **0808 1451354** or visiting [www.gmbunion.org.uk](http://www.gmbunion.org.uk) selecting the legal page from the left hand menu and following the links to clinical negligence where you will be able to submit your claim on-line, or by completing the claim form below and returning it to Sylva Klojdova at GMB Thorne House, 152 Brent Street, Hendon, London NW4 2DP

Complete this form to register a claim for GMB legal assistance regarding a clinical negligence claim for members, their family and friends.
